## **VOLUNTARY** TESTIMONY.

[Extract from the Baltimore "American," December 21, 1878.] "The Pulvermacher Electric Belt is recommended to general use for the following reasons: First, for 'ts wonderful properties for the cure of diseases of the kidneys, stomach. liver and blood; secondly, for its extreme outside, precludes all possibility of any injury being done to the patient, as an external remedy is universally acknowledged to be safe. Another advantage is the facility with which the progress of the disease and cure can be watched, and if the Belt be not quite in the right place, it can be very easily readjusted so as to cover the parts affected. The Pulvermacher Electric Belt, and its perfection, has been hailed with delight, not only by the sufferers who have regained health, enjoyment, and a new lease of life through its beneficent qualities, but by the medical

profession, who very frequently prescribe its use to their patients." FULVERMACHER'S ELECTRIC BELTS AND BANDS are indersed and approved by the most eminent medical and scientific authorities in the world, by the Faculties of France, England, Austria, Prussia, Belgium, and America, and by well-known writers, who refer to the extraordinary cures effected by Pulvermacher's Electric Belts and Bands, in upwards of one hundred medical and philo sophical works.
